

## **Research Study Participants Needed for a study investigating the microbiome in rosacea**

Individuals at least 18 years of age with or without a current diagnosis of rosacea are needed for a research study investigating the role of bacteria and other microorganisms in rosacea development and its changes after treatment

### **Participation Involves:**

- Treatment (oral/topical medication)
- Digital photographs
- Skin swabbing and/or skin biopsy
- Stool sampling

\*Participants will be paid\*
