

Participants Needed For Skin Research Study

Participants with psoriasis are needed for a pragmatic trial of home versus office based phototherapy

Who Can Join This Study?

- Adults with psoriasis and eligible medical insurance requiring phototherapy

Participation Involves:

- Participants will be randomized to receive office or home phototherapy treatment sessions about 3 times a week for up to 12 weeks, which is a routine course of treatment.
- Photography and clinical assessments at the study site
 - Self-assessments via mobile app

Time Needed for Study:

- Up to 28 weeks, including 12 weeks of observation period
- *Volunteers will be compensated up to \$140 for completing assessments via mobile app.
